METHODOLOGY:

This bill seeks to have all firearms sales/transfers background record checks be performed by the Department of Safety, which would change the state from a partial point-of-contact, (POC), state for firearms purchased/transferred through a Federal Firearms Licensee, (FFL), to a, “full POC” state. Currently, with respect to firearms sales/transfers involving FFL’s, NH only performs background record checks on, “handguns” or “other”, while the Federal Bureau of Investigation National Instant Criminal Background Check System (FBI NICS) Section performs background record checks on the sale or transfer of any “long gun.”

Calendar year 2023 to-date (as of October 19, 2023), the New Hampshire State Police Gun Line has performed a total of nearly 55,000 “handgun” and/or “other” checks while the FBI NICS Section has performed a total of just over 27,000 “long gun” checks. The New Hampshire State Police Gun Line currently has eight (8) staff members and taking on performing the “long gun” checks would essentially increase the workload, given CY2023 numbers, by 49%. Therefore, this proposal would require an increase in staffing by four (4) positions to adequately handle the workload. Based on an assumed start date of July 1, 2024, the estimated cost for four (4) Program Assistant I positions (labor grade 15, starting step 1), including necessary equipment and IT expenses, would be approximately \$296,000 in FY 2025, \$296,000 in FY 2026, and \$304,000 in FY 2027.
