Subject: Annual Thanksgiving Dinner 2020

For Immediate Press Release

September 21, 2020

Dear Citizens of Hudson, Nashua, Londonderry, Litchfield, Tyngsboro, MA, and Pelham, NH;

The Hudson Fish and Game Club, Inc for over 27+ years has held our Annual Thanksgiving Dinner for our local communities feeding and delivering thousands of meals over these past years to those less fortunate, the disabled, the elderly, and ANYONE that needed a Thanksgiving meal due to hard times. Last year we downsized and still delivered and fed over 550 needy families. Unfortunately, due to the COVID 19 outbreak, we cannot perform this task without jeopardizing anyone, especially our volunteers, and guarantee full protection against any outbreak, including those we will be delivering to, which are the most vulnerable people. We do not have the Personal Protective Equipment nor the area large enough to perform the tasks safely and within CDC and State guidelines, let alone the logistics to perform the tasks needed to make this event happen.

It is with great sadness that the Hudson Fish and Game Club, INC club members will not be able to safely hold our Annual Thanksgiving Dinner for November 2020. But in 2021, we believe we will be able to make the comeback again and provide our traditional event for those in our community, and the surrounding communities. This is one of our many community events that our members ALWAYS look forward to, to give back to our community. We thank those past members who started this event many years ago and kept this tradition going, and the members that continue to make it successful. We thank all our volunteers and contributors that also make this event happen. The members appreciate your support for all these years and will greatly appreciate you understanding the reasons we cannot hold this event for November 26, 2020.

The members of the Hudson Fish and Game Club, Inc do wish everyone Happy Holidays for 2020.

Mike Pitre

President

Hudson Fish and Game Club, INC

Frank Dion

Board of Directors Chairman
